(54) GRILL AND ROASTER USING THE SAME

(57) Abstract:
PROBLEM TO BE SOLVED: To provide a grill which can be kept at or below a certain tempera ture without decreasing heat while meat is grilled and a roaster using the same.
SOLUTION: This grill includes a round tank part 2 capable of storing water therein, a plurality of hollow bone parts 4 each communicated at both ends with the inner periphery of the tank part 2, a filler part 5 provided in a portion of the tank part 2 for injecting water into the tank 2, a steam venting part for venting steam generated through evaporation of the water injected, and a reporting means for reporting a decrease in amount of water in the tank 2. A roaster using the grill includes a casing 7 which can be inserted into a notch in a table or the like and which can store water therein, a heat source 12 provided within the easing 7, and a grill 1 which can be mounted on top of the casing 7.
